Miles Associates Announces Promotions

Miles Associates is a nationally recognized Architectural, Planning and Interior Design firm with numerous award-winning projects in the Oklahoma and North Texas area. Miles Associates is proud to announce the promotions of Jorge Charneco, AIA and Mark Anglin.

Jorge Charneco has been named Senior Vice President of Health, Science, and Technology. Jorge provides a wide range of professional services for Miles Associates' corporate, academic, and institutional clients. Specializing in the management of complex projects, he has developed innovative solutions for premier facilities throughout the region, including the recent \$175M additions to the OU Children's Hospital. These projects have included several facilities funded and reviewed by the National Institutes of Health (NIH) and the US Department of Agriculture (USDA). As Senior Vice President, Jorge continues to lead key health and science projects while also playing an integral role in business development for the firm's Oklahoma City, Dallas, and Tulsa studios.

Mark Anglin has been named Information Technology Associate. Since joining the firm in 1994, he has been responsible for overseeing the acquisition, implementation and support of all IT systems across the firm's three locations. His support has been solid and his motivation to stay current of the most recent technologies fosters an innovative and forward-thinking environment on pace with the growth of the firm.

"These two people have demonstrated a high level of commitment to Miles Associates and I would like to congratulate them on their new roles. They have each taken the appropriate steps to develop their career, and these new roles are representative of their hard work and dedication to the firm."

– Bud Miles, AIA, President
