### Miles Associates Announces Promotions

Miles Associates, an award-winning Architectural, Planning, and Interior Design firm with nationally recognized projects, has announced promotions in its Oklahoma City office.

David Kim has been named Project Coordinator in Architecture, a role which allows him to coordinate projects for completion of architectural drawings and construction documents. He joined Miles associates in 2008 after graduating from the University of Oklahoma with a Bachelor of Architecture Degree. He is currently working on several corporate and educational projects, such as the Ardmore Higher Education Center, as well as the East Central University Business and Conference Center. David plays a vital role as a member of the Revit Office Standards Committee, which standardizes drawings and current practices within the firm.

Clint Newsom is now an architectural Project Coordinator. Clint has a diverse educational background, with a Bachelor of Arts in Film and Video Studies, Bachelor of Science in Environmental Design, and a Master in Architecture, all obtained from the University of Oklahoma. In addition to providing a creative perspective on key design projects, Clint creates state-of-the-art digital architectural renderings. These renderings are crucial in helping clients envision their project design.

“These two people have demonstrated a high level of commitment to Miles Associates and I would like to congratulate them on their new roles. They have each taken the appropriate steps to develop their career, and these new roles are representative of their hard work and dedication to the firm.”

– Bud Miles, AIA, President
